WASHING COMPOUND.

Patented Sept. 22, 1868.

REASONS FOR PREFERRING THIS SOAP.

The Patentee claims for this soap the following advantages which are clearly set forth in the Letters Patent, to-wit:
First, it can be manufactured at less than half the cost of any soap ever produced.
Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft.
Thirdly, it so modifies the action of boiling water on woollen goods that the fibres do not contract under its influence, and your woollen garment is as large after boiling as before.
Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.
Fifth, the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

ELECTION! ELECTION!

MAYOR'S OFFICE,
CITY OF RALEIGH, March 8, 1869.

In pursuance of a resolution adopted by the Board of Commissioners, notice is hereby given, that an election will be held on the 8th day of April, 1869, at the Court House, in this City wherein the qualified voters of the City shall express their approval or disapproval of the question, whether the City of Raleigh shall borrow Fifty Thousand Dollars in the manner, and for the purposes mentioned in the following act of the General Assembly of North Carolina.
WM. H. HARRISON, Mayor.

AN ACT TO ENABLE THE CITY OF RALEIGH TO BORROW MONEY FOR CERTAIN PURPOSES.

The General Assembly of North Carolina do enact: Section 1. That for the purposes of paying present indebtedness of the City of Raleigh, and also for meeting the expense of improvements to be made for the same, the City is hereby authorized and empowered to issue bonds severally of such sums or denomination, payable at such time or times respectively, drawing interest at such rate, not exceeding eight per cent. per annum, payable half yearly, of such form and tenor, and transferable in such way as the Board of Commissioners of said City shall deem most judicious. The said bonds so to be issued shall be disposed of upon the best terms practicable. *Provided*, That said bonds be of the denomination of one hundred, and five hundred, and one thousand dollars, respectively, and in such proportion as may be deemed advisable, and *Provided further*, That said loan shall not exceed fifty thousand dollars, and the bonds having twenty years to run.

SEC. 2. That the Board of Commissioners of the City of Raleigh are hereby authorized and empowered, and it shall be their duty, to provide for the payment as well of the principal money as also of the accruing interest of the bonds to be issued under the power granted in the preceding section, by annually laying particular taxes for those special purposes on all the persons and subjects of taxation on which said Board of Commissioners now are or hereafter may be authorized to lay taxes, for any purpose whatever, and such taxes shall be collected and specially and exclusively applied to the satisfaction and discharging of the interest, and also of the principal money of such bonds, and so much thereof as may not be annually required to pay such interest and cannot be applied in discharge of the principal money of said bonds, shall be so invested as to secure the payment of such principal money upon maturity of said bonds. For the purpose of securing the due investments of the amounts to be collected from year to year and applicable to the payment of the principal money of said bonds, the Board of Commissioners aforesaid shall appoint some suitable person to be styled "Commissioner of the Sinking Fund of the City of Raleigh," whose duty shall be, under such general rules and regulations as said Board of Commissioners shall from time to time prescribe, to make investments of so much of the taxes collected as aforesaid as shall be applicable as aforesaid to the payment of the principal money of said bonds, and to do and perform all such other services in connection with the debt of the City of Raleigh as said Board of Commissioners may prescribe and such Commissioner shall give bond, and receive such compensation for his services as said Board of Commissioners may determine.

SEC. 3. That none of the bonds authorized to be issued by the first section of this Act shall be disposed of either by sale, exchange or otherwise, for any purpose whatever, other than that declared in said section; nor shall any of said bonds be applied either by sale, exchange or otherwise, in satisfaction, discharge or renewal of any debt of the class of debts referred to in said section, until such debt shall have been first duly audited and approved by the Board of Commissioners of the City of Raleigh.

SEC. 4. The provisions of this Act shall be submitted to a vote of the qualified voters of the City of Raleigh, at an election to be held at the Court House in said City, at a day to be designated by the Commissioners thereof, which shall not be less than thirty days after the ratification of this Act. Those approving the provisions of this Act shall deposit in the ballot-box a slip folded containing the printed or written word "Approved." Those disapproving the same shall deposit a like ballot with the words "Not Approved." If a majority shall vote "Approved," it shall be deemed and held that a majority of the qualified voters are in favor of giving the Commissioners authority to issue the bonds of the City as mentioned in this Act, and likewise to levy and collect the necessary taxes to pay the interest and principal of said bonds as above mentioned. If a majority of said voters shall vote "o Approved," then this Act shall be of no effect. Those qualified to vote for Mayor and Commissioners of said City, and none others, shall be allowed to vote, and the election shall be held and returns made under such rules and regulations as exist in case of election of civil officers. It shall be the duty of the Mayor to cause a copy of this Act to be posted at the Court House door and to be published in the *Raleigh Standard* and *Sentinel*, daily for twenty days preceding the election, and he shall publish in like manner a notice of the election. Public notice shall be given of the result of the election.

SEC. 5. The Commissioners of the City of Raleigh shall have power, consistently with the laws of the State, to provide for the registration of voters, and to take all measures necessary and proper for holding the election as contemplated in this Act.

SEC. 6. This Act shall be in force from and after its ratification.

Ratified this 3d day of March, A. D. 1869.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

SATURDAY, APRIL 3, 1869.

CHIEF JUSTICE PEARSON TO GOVERNOR HOLDEN.

"I am sorry, Governor, that the Court has ordered one of your officers to jail for contempt."

Governor Holden: "Court or no Court, Chief Justice or no Chief Justice, d——n me, Sir, if my officers go to jail until you go over the dead bodies of my militia."

Governor Holden as he is hurrying to the mob on Market Square, followed by a posse, meets a Minister of the Gospel, and without the least provocation raises a big black stick, and cries out with the voice of a white-livered coward, "Who are you, Sir?"

HANDS TO YOUR WORK!—LITTLE FIELD TO THE RESCUE!—HOW MUCH FOR THE ROAD?—WHO SAYS SIX MILLIONS?—OH, THAT JUDGE ALDEN WERE HERE!

In the absence of the Editor of the *Standard*, General Littlefield, (the distinguished lobbyist, who was presented by the Grand Jury of Wake for attempts to influence the Legislature with whiskey and money,) we stated that if he were here the sale of the North Carolina Rail Road could be accomplished, and that the Raleigh and Gaston Road could better afford to pay $300,000 to get a bill passed to sell the Road, than the Chatham Road could afford to pay $100,000 for the bill granting its charter. $4,000,000 in State bonds have been offered for the State's interest in the North Carolina Road. We tell the hands that six can be obtained as readily as four. The State's interest in the Road cost three millions. Four millions in greenbacks is only about $2,750,000 in gold. If you will sell the Road for State bonds on the last day of Holden's administration, you can get $20,000,000 for it, payable in State bonds.

A Wall Street Banker informed us that the Editor of that saintly sheet, lately conducted by Bro. Pepper, received, as a fee, $100,000 for lobbying the Chatham Road through the Legislature.

Dr. Hawkins, President of the Road, testified that Littlefield was his Attorney, and he paid him in way of trade and sale of bonds about $5,000 for this service. At one time the sale of the Road was a fixed fact. The absence of the *Standard* man cooled the ardor of the hands for the sale. His return has warmed them up, and they will now make renewed efforts to sell.

The Governor, having given his approval to the sale of the Railroad bonds at 65, as well as to that most infamous swindle, the Penitentiary location, has now to be silent. We understand the bill for the sale of the Road will be advocated by Democratic hands, while the Radical hands and carpet-baggers will remain quiet, but do the voting when it comes to the pinch. The State's debt and liabilities as stated by Major Graham, in the Senate, last week, is upwards of $30,000,000.

The faith of Wall Street is shaken. Gen. Littlefield's friends in that Street, have enough of your bonds. Your bonds to-day are not worth 40 cents in the dollar in gold; so four millions in greenbacks for the road, would be a third less than the road cost. But hands you must appear a little stiff about the sales; don't yield too readily—make them pay you handsomely. Littlefield got most of the money for putting through the Chatham Road, while the hands, many of them, only got such rations in whiskey, as it pleased the *Standard* editor to issue; yet many of you know that the "spirits" furnished were good, and Bill High, colored, made it into acceptable juleps without money, and without price, and without much trouble to yourselves, for you did not go out of the Capitol to get a julep. Nothing was required of you but to vote right. The man of the least credit among you, could borrow $1200 and no security required.

We tell you that $500,000 can be obtained for a bill to sell the Road—and you can fix your own terms.

A majority of the hands who purchased 8,000 acres, upon which to work the inmates of the Penitentiary, may be relied upon as favouring the sale. All of the hands, perhaps with one exception, who live on the Raleigh & Gaston Road may be relied upon.

Judge Alden, the swindler who belonged to Governor Holden's reconstruction staff, said, the Legislature had been bought, that he could buy you again.

We mean no reflection on the Holden family, by saying the Judge was of the staff, but we mention it by way of letting the natives see in what estimation they are held by the carpet baggers.

The *Standard*, too will say, this matter of Attorney for the Chatham Road was a private matter which we should not make public.

Some of the hands are becoming restless under the very protracted session. We regret extremely that this virtue does not pervade the entire body. Several members have gone already to their homes. It is suggested that all would leave if they could get their pay. But, alas! the Treasury is empty sure enough. We heard yesterday that Treasurer Jenkins would not be able to effect a loan as long as the hands remained in Raleigh. You would be wise to leave at once then, hands, or your carpet bags will get too large for the doors and you will never get them out. †

THE FUTURE OF THE NEGRO.

What is to be the future of the negro is a problem of exceeding difficulty. That the negro race is diminishing in numbers seems to be generally understood. Gen. Howard, of the Freedmen's Bureau, long ago published that they had decreased some million or more within the first two years after the close of the war. But their decrease in population is not the most distressing feature connected with their freedom. Their religious condition must awaken the apprehensions and sympathies of all genuine philanthropists. From many parts of our widely extended Southern domain the most astounding accounts relative to their welfare as immortal beings, have been published from time to time. We could easily collate testimonials from the highest sources that would establish the fact of their decadence and fearful condition, when viewed from either a humanitarian or religious stand point. We will only refer at this time to one evidence which is painfully suggestive.

When the Protestant Episcopal Convention met in New Orleans, the condition of the negro elicited a very interesting discussion. Many deplorable facts were stated in the course of the debate. We quote from a New Orleans paper, that our readers may learn something of the true condition of the negro race in States South of this. It says:

"The reports, made unofficially by the rectors from the country parishes, concurred in representing a horrible state of affairs as existing among them. It was stated, from personal observation and knowledge, that they are abandoning any and all semblance of Christian worship that may have been taught them, and are lapsing into absolute idolatry, fetichism, voudouism, and the worship of snakes, lizards and toads. This does not come from irresponsible sources, but directly from the lips of clergymen of the Episcopal Church, and is entitled to implicit belief. They say that the negro orgies are savage, indecent and inexpressibly horrible."

Surely with such statements as these it cannot be a matter for surprise that the once happy and contented negro is disappearing forever. No rational man, with the feelings and sympathies which distinguish the best of our race, can read such reports without sadness and regret. We believe that such sad results are attributable, in a great degree, to the course pursued by the Radicals in their legislation in the South. Not content with emancipating the negro, they have pursued a policy towards him that was only calculated to render him discontented and unhappy, and to make him a burden, and, in some localities, a curse. We believe, that if the negroes, after their freedom had been obtained, had been left undisturbed by impertinent and hurtful intermeddling from Northern emissaries, they would have still been, to a large extent, the same faithful, contented and useful beings they were in former years. We are no enemy of theirs; we wish them every blessing they may ever need, but we cannot read the evidence of their decay and corruption without sorrow and regret.

We now propose to show that a great deal of Radical philanthropy is the merest gammon; that the negro is guilty of the grossest credulity when he supposes that the Southern white man is his enemy, and the Northern Radical his friend.

The only person who truly understands the negro character is the white man who has been reared in continued contact with the African. The white men who in boyhood fished and hunted and played games with the negro boys, are to-day the only genuine friends they have, for they only feel those attachments and possess that knowledge which spring from the associations of a life time. But how is it with the Northern Radical who is blatant in his professions of love and admiration for his "friend, and brother," the newly liberated slave? Let us ga her here and there a few utterances and acts, which placed in juxtaposition, may serve as a reflector to throw light upon a dark subject.

In New York there is very hostile feeling entertained against the negro. A writer in that city, says that the feeling against the colored people is intensely bitter, and that it is fostered by the Irish element, and quickly acquiesced in by a very large portion of the native-born citizens." To give our readers a further insight into the feelings cherished against the negro, we reproduce the following passage from a New York paper:

"If a colored man applies for work at a new job, he always has to wait till the contractor sees whether he can get enough white laborers for his purpose before he is taken on; and it more often happens that he is at once refused employment, simply on the ground of his color, although the contractor who refuses to employ him may be at the very moment short of his requisite number of hands; and, when he does succeed in getting work, he has to accept lower wages, and is always expected to work harder than a white man, while his fellow workmen "put upon" him whenever they get the opportunity, and ceaselessly jeer at him and make him the butt of their jokes."

When a decent colored man applies for a house in some desirable locality, the reply is, "I never let my room, to a nigger." A writer in the N. Y. *Times* (Radical) says that he was informed by respectable men:

"That they did not know a single work shop in the city where a colored man could get employment as an artisan, or where a colored lad would be taken as an apprentice. Respectable hotels almost invariably refuse to admit colored people within their doors. The proprietors of ice cream, oyster and dining saloons, and the keepers of liquor stores, even of a second or third rate class, refuse to furnish them with refreshments."

Another paper says:

"That some of the theatres refused to admit colored persons at all, while those who do condescend to do so only allow them to sit in one part of the house—the tier of seats immediately beneath the roof.

The Christian Convention of ministers of all denominations that assembled in New York, last summer, showed the feeling on this subject by "not inviting their colored brother ministers to attend the meetings."

Excluded from respectable neighborhoods, the colored masses are packed like sardines in a box, in rickety old houses whose walls, floors, and staircases are begrimed with dirt."

When two or three negroes in Washington city wished to attend the Inauguration ball they were denied the privilege. They wanted to attend because it was a ball given in honor of *their* President—the man whom they had helped to elect. But this was not to be allowed. But, as the N. Y. *World* well remarks:

"When it comes to Constitution tinkering for the Union and Constitution-making for the Southern States, this same negro is not only the equal but the superior of the white man."

The *Tribune*—the especial champion of Abolitionism and edited by H. G. the supremest of all negrophilists, thus disgorged his bile on the occasion. Said Greeley:

"The repugnance to certain associations and affiliations is certainly natural. * * There are physical and mental differences in the two races which separate them by an *impassible law of repulsion*, and which can be overcome by no amount of *humanitarian philosophizing or philanthropic legislation*. The white does not accept the black as a congenial fellow and associate. *And he never will.* * * We believe that sensible colored people will agree with us upon this point. They see that neither their own happiness nor their position in society will be improved by ignoring *the differences which the Almighty has created*. No black man with a proper sense of self respect would seek to crowd himself into society where he was not wanted, and where he must be conscious that *all around regarded him as an inferior*."

We ask our colored legislators to read this utterance of the great Radical apostle, and to read it from the stump, when they next harangue their constituency. No doubt Greeley reflects the sentiments of nine-tenths of the Radicals of the North. He says there is "an inexorable law of repulsion"—that this law cannot "be overcome by any amount of humanitarian philosophizing or philanthropic legislation"—that the white Radical will never "accept the black as a congenial fellow and associate"—that "the Almighty has created" "differences," and that the negro is "regarded" as "an inferior" by his Radical brethren "all around." And yet is not the colored man a friend and a brother?

We will give one more extract, from the writer in the *Times*. He says:

"In the course of my wanderings through the negro quarters, I was particularly struck with the fact that whereas I found numerous cases of white women living with colored men, (one gentleman I came across luxuriating in two, who happened to be fighting at the moment of my visit) I did not find a single instance of a white man living with a colored woman; and strange to say, in all the cases of miscegenation which I met with, the women seemed to have picked out the lowest and the most brutal looking men that they could possibly find."

We can now readily see what is the real condition of the negro in the Northern Cities. We can understand how he is estimated by those who make it a point to profess on all occasions their peculiar and especial attachment to the man of color. There is pertinency and force in the remark of the New Orleans *Crescent*, that "the only place on earth where negroes have sincere friends and well wishers" is the South. It mildly characterises the conduct of "the carpet-baggers who infest the South" and who "electioneer with the negroes for office on the ground that the Northern people are their best friends" as simply "audacious." We think our readers will come to the same conclusion. †

HOUSE OF REPRESENTATIVES.

AFTERNOON SESSION.

FRIDAY, April 2, 1869.

House called to order at half past three o'clock.

Mr. Stilley moved to reconsider the vote by which the resolution giving *per diem* for the time during the recess was laid on the table, and that the consideration of the motion be postponed until Monday next.—Carried.

On motion of G. W. Price, colored, the rules were suspended, and the following resolution was taken up:

WHEREAS, doubts exist in the minds of a portion of the members of the General Assembly in regard to their term of office; Therefore,

Resolved, That it is the sense of this General Assembly, that, the members composing the present Assembly, are elected for two years, beginning 1868 and expiring 1870.

The hour for the special order was announced, to-wit:

The substitute for an act to provide for a system of public instruction.

By agreement those who wished to amend the bill sent their amendments to the Clerk's desk, when,

Mr. Bowman called the previous question on the bill and the amendment, which was sustained.

Mr. Moore, of Chowan, gave notice that unless section 33 and 62, were restored to the bill that he would vote against it. He desired that there should be uniformity in text books as presented in section 3.

(Section 33 provides that the Committee of any Township shall, when they deem it advisable, call a meeting of the voters, who pay taxes in the Township, and submit to them the proposition for a continuance of the schools beyond the four months required by law; and shall also submit to them an estimate of the expenses per month for the continuance of said schools.

Section 62 provides that no Township shall be entitled to receive any appointment of State or County school moneys which shall not have maintained such free public schools as are required by this act, for at least four months during the then next preceding school year.)

Mr. Painter said he had contemplated making some remarks on the bill on its third reading, but being deprived of that privilege by the call for the previous question he would take occasion to have the remarks he intended making printed.

The amendments were then submitted and acted on.

The resolution as amended was then adopted.

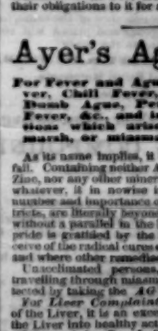
Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.



The reputation this excellent medicine enjoys, is derived from its cures, many of which are of a truly marvellous character. Inveterate cases of scrofula, where the system seemed utterly given up to corruption, have yielded to this compound of anti-strumous virtues. Disorders of a scrofulous type, and affections which are merely aggravated by the presence of scrofulous matter, have been radically cured in such numerous instances, in every settlement in the country, that the public do not need to be informed here that it is in most cases a specific and absolute remedy.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organisms undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be insidiously deposited in the lungs or heart, or tumors formed in the liver. These facts make the occasional use of the *Sarsaparilla* as a preventive, advisable.

It is a mistake to suppose that so long as no eruptions or humors appear, there must be no scrofulous taint. These forms of derangement may never occur, and yet the vital forces of the body be so reduced by its subtle agency, as materially to impair the health and shorten the duration of life. It is a common error, also, that scrofula is strictly hereditary. It does, indeed, descend from parent to child, but is also engendered in persons born of pure blood. Low living, indigestion, foul air, licentious habits, uncleanliness, and the depressing vices generally, produce it. Weakly constitutions, where not fortified by the most constant and judicious care, are peculiarly liable to it. Yet the robust, also, whose tainted blood swells the veins with an apparently exuberant vitality, are often contaminated, and on the road to its consequences. Indeed, no class or condition can depend on immunity from it, nor feel insensible to the importance of an effectual remedy.

In *St. Anthony's Fire, Rose or Erysipelas, for Tetter, Salt Rheum, Scald Head, Ringworm, Sore Ears and Eyes*, and other eruptive or visible forms of the diseases caused primarily by the scrofulous infection, the *Sarsaparilla* is so efficient as to be indispensable. And in the more concealed forms, as in *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and other affections of the muscular and nervous systems, the *Sarsaparilla*, through its purifying power, removes the causes of the disorder and produces astonishing cures.

The sarsaparilla root of the tropics does not by itself achieve these results. It is aided by the extracts combined with it, of still greater power, to permeate in this union of healing virtues, *Syphilis or Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. *Leucorrhœa or Whites, Uterine Ulcerations, and Female Diseases* in general, are commonly soon relieved and ultimately cured by the invigorating and purifying effect of our *Sarsaparilla*. *Rheumatism* and *Gout*, often dependent on the accumulations of extraneous matters in the blood, are thoroughly expelled also in this medicine. For *Liver Complaints*, torpidity, inflammation, abscess, etc., caused by rankling poisons in the blood, we unhesitatingly recommend the *Sarsaparilla*.

This medicine restores health and vigor where no specific disease can be distinguished. Its restorative power is soon felt by those who are *Languid, Listless, Despondent, Sleepless*, and filled with *Nervous Apprehensions or Fears*, or who are troubled with any other of those affections sympotomatic of weakness. Many, after taking it for *General Debility*, have written us of the youthful vigor imparted to their nervous system, which restored buoyancy to their public life they thought had departed on the advance of age. Others, whose fountains of life were always sterile, acknowledge their obligations to it for an obvious change.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fevers, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The success and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

All the members should be present. The object of this Association is truly noble, and appeals with extraordinary force to every North Carolinian. They propose to sell at the most reasonable rates. It will be to the interest of buyers to examine their stock before purchasing elsewhere. †

MRS. ŒTTINGER has just received her Spring Styles of Millinery, which will be open soon for the inspection of the ladies.

Mr. Œttinger has just received his Spring Stock of Dry Goods, &c., which he offers low for cash.

CALVIN J. ROGERS.—The telegraph announces that Calvin J. Rogers of this county has been nominated by President Grant to the Senate for the office of Post Master in this City, in the place of the present incumbent, Mr. Miller. We make the announcement with sorrow, because the appointment is not creditable to the President, nor to the party.

There is no more honest, capable and universally popular Post Master, than Andrew Miller of this City in any town or State in the Union. His accounts with the Post-office Department and his demeanor towards citizens of all parties, show his eminent qualifications for the place.

Gen. Grant has been egregiously imposed upon in making this nomination, and we know no one to blame for it, but John T. Deweese and his copartners in this conspiracy against the wishes of the honest people of Raleigh. Apart from Mr. Rogers' incompetency, he is almost universally objected to by the citizens of this place.—Even his party friends regret and deplore his appointment. We would not do Mr. Rogers or any other man injustice, but it is due to the public and the authorities at Washington to say, that Mr. R. who was recently appointed Railroad Agent on the N. C. R. R. was removed for incompetency after serving one month, and we learn that the President of the Railroad declares that he was a defaulter in that one month $3,000 and his securities will have to pay it.—Surely Gen. Grant who in these matters must rely upon others, has been sadly imposed upon, and in making appointments in North Carolina, has made a bad start.

RAILROAD MEN IN A STEW.

We are informed that there is great excitement among the Railroad men. The prospect is good for a final defeat to all their schemes. It is said, that in all probability the appropriations for the various Roads will fail, because of the *unconstitutional* features contained in the several bills. This remark applies to all.

With the State credit prostrate and the people ruined, a relief from a taxation of $30,000,000, will be hailed with high satisfaction throughout North Carolina. We are the poorest people in the world, and if we are to be taxed to pay the interest on a debt of over $50,000,000, but two results await us: either thorough and irretrievable ruin, or repudiation. If after all the wild gambling with other people's money and the Quixotic schemes for recuperation, there should come failure to the legislation of the hands, the people may rejoice indeed, for a weight of debt wholly unbearable and ruinous will have been lifted from the old Mother, now lying prostrate under the feet of the oppressor, and whose very life's blood is being sucked out by the insatiate leeches that have floated down from the Northern waters, and by the vampires that have come out from our own creeks and ponds. So mote it be. †

TENURE OF-OFFICE—WHAT HAS BEEN DONE.

After a sharp and protracted fight the tenure-of-office bill has been decided. A compromise was effected, the result of which gives great annoyance to many of the President's friends, who are trying to induce him to veto the bill. The *World* correspondent from Washington, says, that if Grant signs it, he will be bound "in stronger chains than ever Andrew Johnson wore." Senator Williams, who drafted the old law, is greatly exalted, for he says the "new bill is better and stronger than the one he wrote, because it declares unequivocally the power of the Senate over removal, and makes the tenure of all offices determinable by law."

Butler betrayed as usual the party he pretended to side with, and agreed to this "compromise." Grant once wrote that Butler was "bottled up" on the James, and now Butler rejoices that Grant is "bottled up" in turn by this new bill, that only awaits his signature to become a law. The vote in the House was 106 ayes; nays 67. Eighteen Republicans voted no. In the Senate ayes 42, nays 8. Mr. Sprague was the only Republican who voted no. Gen. Grant has thus far found, that the Presidential road is a "hard road to travel." †

WHICH?

The New York *Citizen* (once edited by that versatile genius the lamented Gen. Halpine—"Miles O'Reilly") has a startling article on "Imperialism," the object of which is to show that there is an organized plot to overthrow the Constitution, (if that is not already done,) and to create Grant the First Emperor. *Per contra*, the New York *Herald* in its issue of the 31st. ult., on the "United States Senate," threatens that body with distruction if it opposes Grant, because it says, that would be "in conflict with the people." It argues that the Senate is usurping undue authority—is endeavoring "to control the vast wealth of the nation" and to destroy "the Executive power &c." Between such contradictory articles who will decide? Possibly both are true; possibly neither the one nor the other is true. "Let us watch and wait." †

THE INDIAN WAR.

By recent intelligence received from Gen. Custer's forces, we learn that the Indian war has been ended. We notice that this announcement is made ordinarily after a victory by which several lodges are destroyed and a few Indians killed or captured.—We are afraid that this war will have to be of long duration, like our difficulties in former years with the Seminoles of Florida. We may expect to hear soon of other outrages and of other victories, as in of the war being ended again. After all this Indian war is an expensive affair. †

THE following bills have passed the Senate on 3d reading—having previously passed the House:

1. In relation to Landlords and Tenants.
2. To allow stays of Execution before Magistrates, in causes of actions arising since May 1st, 1865, and to ratify stays already granted.

In the White House, as in journalism—the most successful papers are those which have the largest number of subscribers—*World*.

The recent administration is said to be like lead—it readily receives and permanently retains Dents.—*World*.

CHARLES' LONDON CORDIAL GIN, Or Pure Liquor of Juniper Berries,

This favorite brand of Pure London Cordial Gin, has stood the test of time, imitation, piracy, high tariffs and unfair competition, and still enjoys a constantly increasing sale; showing that true merit does not always go unappreciated.

CHARLES' LONDON CORDIAL GIN is offered to the public as a perfectly reliable specific in all cases of DISEASED BLADDER and KIDNEYS. It acts directly on these organs, with a directness and speediness which render it invaluable to persons suffering from GRAVEL, DIABETES INFLAMED BLADDER, scanty and highly colored urine, and in all cases where, from whatever cause, a healthful diuretic is required.

Ladies subject to painful menstruation, can by the use of Cordial Gin a few days previous to, and during illness, obtain great relief. In such instances it should be taken with sugar and warm water.

As a tonic and beverage this Gin is unequaled, as it possesses none of the headache properties to be found in those poisons, now so frequently sold under the names of Gin, Brandy, Whiskey, &c.

For the Sentinel.

Mr. Editor:—I recently attended the examination of the scholars, at Springfield Academy, in Guilford county, and was so favorably impressed with the exercises that I propose giving you a short account of them.

Before doing so, however, I wish to call attention to the plan of organizing and conducting this and other schools now in operation in this State. They are under the management and control of what is styled the "Baltimore Association of Friends." This benevolent Association, soon after the close of the war, seeing the almost universal depression and distress of the people, cast about them to find the means for relief. After contributing to the immediate physical wants of the destitute (in which charity they have spent a large sum of money) they turned their attention to Education and Agriculture. It is gratifying in the extreme to read the reports of the President as they appear from time to time, and note the progress made since they commenced their efforts in these several departments. It is proper to state here that although this is an "Association of Friends" it is not by any means sectarian in practice, for all persons within their reach receive nearly the same benefits and advantages.

They commenced their schools about the close of 1865, at which time they had 12 schools of about six hundred pupils. Now at the beginning of 1869, they have 42 schools, and about 3 000 pupils! In a recent letter from the President, Francis T. King, who is an educated and christian man, I find the following remarkable statement: "Every Friend's child is at school—1,300 of them—thoroughly disciplined and taught, and 1,700 more, the children of neighbors, receiving the same intellectual and religious training."

I have seen no account of their disbursements for the year 1868, but, at the close of 1867 they had expended, on Education alone, $12,659.85.

Another feature of these Schools is worthy of notice, and which is spoken of by the President, in his "report," as follows:

"NORMAL SCHOOL.

During two months of the Summer vacation, the teachers of our Primary Schools were collected near High Point, a central and healthy locality, for the purpose of undergoing a thorough practical training in improved methods of instruction and school government.

Besides our own teachers, others, desirous of improvement, were admitted into the class, which, during the past session, numbered 106.

This large attendance evidences the great interest which is felt in this School, which was further proven by the daily presence of large numbers of visitors from the surrounding country, many of them being leading men of influence in the State. We can hardly over estimate the benefits of such a School at this particular juncture to the State at large."

The President says further: "All but four of the teachers are natives of North Carolina, who have had the benefit of two sessions at our normal school. They have filled their positions to the entire satisfaction of the Board."

The school at Springfield is a model one in every respect. The examination embraced two days, and gave unmistakeable evidence that the scholars had been thoroughly instructed in all their studies. Perfect system, neatness and order were noticed in the exercises, and all the surroundings. What had been noted and commented upon by the President in his report for 1867, was particularly apparent upon this occasion:

"It gives us great pleasure to speak in commendation of the brightness and natural intelligence of the scholars under our care, and the avidity with which they drink in the knowledge presented to them. Under the judicious rules of discipline and carefully graded system of instruction so admirably carried out by our Superintendent and teachers they have rapidity advanced. An air of neatness and order is increasingly noticed not only of person, but of all their surroundings. The example of pious zeal for their best interests so generally shown by the teachers has had a marked influence in developing good habits in the pupils."

Now when we consider that all this has been done entirely by individual liberality, and mostly by strangers, would it be too much to call upon the people of our own State to come forward and render some assistance. I have no plan matured to suggest but I would ask that some earnest friend of education either in or out of the Legislature would take this matter in hand, and never cease agitating until this benevolent association has been recognized, and assisted from the State Treasury. It need not conflict with any other system of Common Schools already in contemplation or which may hereafter be adopted by the State. Here is the machinery all ready, all that is lacking is a little motive power in the shape of money, when a uniform and acceptable system of education might at once be started all over our State.

They already have, or could procure the services of an efficient corps of teachers sufficient for any emergency.

There is no one thing that the people would so cheerfully pay taxes for as for the education of their children upon some such plan as this, for they see for themselves, that it is mainly a "labor of love." There are no high salaries paid; there is no unnecessary expense allowed anywhere. They have taken us by the hand and are generously endeavoring to help us to our feet. If they succeed in accomplishing this, safely and permanently I firmly believe there is not a man of them, but would feel amply repaid, without reaping a dollar of profit for himself. D. W.

CONGRESSIONAL.

WASHINGTON, April 2.—In the Senate, Sumner and Wilson presented a petition for the removal of political disabilities.

Bill extending time to complete the first section of the Little Rock and Fort Smith Railroad was introduced.

CAUTION! WE desire to warn the dealers in, and consumers of snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages, and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,

OF THE

UNITED STATES OF AMERICA,

WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,

$1,000,000,

PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his death, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is undoubtedly able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so muddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,

U. S. A.,

and finds just what he wants:

An ALL CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.

Amount insured,	$10,005,550.00
Total Premiums,	350,117.09

The whole number issued by the Connecticut Mutual in the first year of its existence was 602

By the Mutual Benefit, of New Jersey,	691
" New England Mutual,	343
" Phœnix Mutual,	335
" Massachusetts Mutual,	312
" Equitable of New York,	277

The Mutual Life, of New York, in the first year of its existence, only issued 470 policies.

In its 10th year,	1,260 "
And in its 20th year,	3,842 "

this latter being 680 less than was issued by the NATIONAL in its first seven months.

LIFE IN[illegible]

The Most Vigorous and [illegible] eral Insurance Company [illegible] Country.

BROOKLYN LIFE INSURANCE COMPANY,

141 Broadway, N. Y.

ASSETS OVER

$1,000,000!

CHRISTIAN W. BOUCK, ... *President.*
ABRAM D. POLHEMUS ..... *Vice President.*
WILLIAM M. COLE ..... *Secretary.*
D. P. FACKLER ..... *Consulting Actuary.*
DANIEL AYRES, M. D., LL.D., *Med. Examiner.*

POLICIES ISSUED AS GOOD AS UNITED STATES BONDS.

POLICIES VALUABLE IN LIFE AS AT DEATH!

The BROOKLYN LIFE is the only Company in the country which guaranties a definite surrender-value to every Policy on which two or more annual premiums have been paid; this amount, in dollars and cents, is endorsed on every Policy issued. Should any Policy-holder become unable to pay his premiums, he can thus know the cash worth of the Policy at any time after two annual premiums have been paid. This certainly is the greatest inducement and most tangible advantage ever accorded to parties insuring their lives.

Among the advantages offered by the BROOKLYN, which thoroughly evince the determination of the officers to make it the MOST LIBERAL Life Insurance Company in the United States, are:

1st TOTAL REMOVAL OF ALL RESTRICTIONS ON TRAVEL AND RESIDENCE. The Assured may travel or reside anywhere they choose, the world over without extra premium or special permit.

2d. A Loan of one-third of the Premium to the Policy-Holder Annually.

3d. All Policies are non-forfeitable after two full annual premiums have been paid.

4th. Rates as low as are consistent with financial soundness, and less than those of almost all Companies which accommodate their insured with loans.

5th. Dividends annually (after second year) in cash. Dividends are divided on the CONTRIBUTION PLAN—the only equitable manner of dividing the earnings of a Life Insurance Company. The Contribution Plan was first conceived by Mr. D. P. Fackler, now Actuary of this Company, and has been adopted by most of the best managed Life Companies in this country.

The BROOKLYN LIFE has paid and now pays to its Policy-holders LARGER DIVIDENDS than ever before paid by a Life Insurance Company!

6th. Promptitude in paying losses.

7th. No charge for policy or stamp.

The success which the "BROOKLYN" has achieved, fully exemplified in its rapid and healthful growth, is a convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

THE Sentinel.

PUBLISHED AT THE

CAPITAL OF THE STATE.

Daily, Semi-Weekly and Weekly.

NEW ARRANGEMENT.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

It will be the zealous and fearless advocate of the CONSTITUTION of the United States, seeking to bring the people back to their ancient reverence for that immortal instrument, and to restore the policy of the country to that honored standard, as the only guarantee of National prosperity.

It will do justice to the men and measures of the present day, whenever they may merit it, but it will unsparingly lash and denounce all who set themselves up in opposition to the Federal Constitution, and hold up to the public indignation corruption and imbecility in high places.

It will ardently seek the promotion of the best interests of North Carolina,—moral, educational, material and political.

THE LATEST NEWS

From every quarter, both by mail and telegraph will be carefully collated and presented.

Full and correct market and financial reports will be given.

And, in one word, no effort will be spared to make the SENTINEL, in all respects, a reliable

FIRST CLASS NEWSPAPER.

NEW METHOD OF WASHING CLOTHES WITHOUT LABOR.

THE AUTOMATIC

CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the low price of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the cloths.

The hot suds and steam, by the action of heat are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blanket. For flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and cleansing the dirt WITHOUT LABOR or friction.—a thorough rinsing finishes the process.

Washing day will no longer be a terror and dread to housewives. The cost of the Boiler will soon be counted in the SAVING OF LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany the Boiler with testimonial letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOGGIE & BROTHERS', and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State.
